Work regulations and safety rules in MINAKO Research Baselab Electronics Design U02-209

1. Practical works are taking place accordingly to the time-table.
2. It is not allowed to enter the room wearing outerwear. When entering the room, outerwear must be hung on a peg.
3. It is not allowed to place bags or other large size objects on the tables.
4. Keep the workplaces clean.
5. To log into a computer, use the username and password given by the instructor.
6. The students will be accepted to start the lab, if they:
 - are informed about and follow the given regulations, and have approved them with signature;
 - will come to the laboratory at the right time;
 - have been prepared for the laboratory works;
 - switch off mobile phone audio;
 - use mobile phone consistently with the rules outlined by the instructor.
7. It is not allowed:
 - to switch the connectors if unnecessary;
 - to use illegal hardware or software;
 - to take software copies from laboratory computers;
 - to leave the laboratory for longer time without the approval of the instructor;
 - to carry out any laboratory equipment from the room.
8. For completing every laboratory work:
 - the students must show the results of the measurements, simulations, or implementation rules to the instructor;
 - the students must log out or switch off the computer, following the instructor guidelines.
 - the participating students must be registered and the working place should be given over according to the instructions.
9. For final evaluation, every student must perform in due time and accordingly to the requirements explained by the instructor.
10. Problems associated with missing practical works or with missing evaluation will be solved individually.
